Emergency contact

Your skin type

Your goals

What would you like SMP to do?

☐ A full, closely shaved look ☐ Add density behind longer hair ☐ Hide a scar

☐ Cover patches of hair loss

Which hairline do you have in mind?

☐ Sharp, defined edge ☐ Soft, natural edge ☐ Broken, mature hairline ☐ No hairline (density only)

Photos of your scalp today (optional)

Health questions

These questions are the studio's own policy. They help your artist plan a safe appointment. They aren't medical advice: if you have a question about your health or your medicines, ask your doctor.

Are you pregnant or nursing?

☐ Yes ☐ No

Have you taken isotretinoin (Accutane or a similar acne medicine) in the last 12 months?

☐ Yes ☐ No

When did you stop?

Do you take blood thinners, or aspirin, ibuprofen or fish oil regularly?

☐ Yes ☐ No

Which ones?

Do you have a bleeding or clotting disorder?

☐ Yes ☐ No

Which one?

Do you have diabetes?

☐ Yes ☐ No

Do you have a condition or take a medicine that slows healing or affects your immune system?

☐ Yes ☐ No

Tell us a little more.

Do you scar easily or form raised scars (keloids)?

☐ Yes ☐ No

Do you have a skin condition on or near your scalp, such as eczema, psoriasis, rosacea or dermatitis?

☐ Yes ☐ No

Which one?

Are you allergic to numbing creams (such as lidocaine), latex, metals like nickel, pigments or hair dye?

☐ Yes ☐ No

Which ones, and what happened?

Have you used retinol, retinoids or exfoliating acids on the area in the last 2 weeks?

☐ Yes ☐ No

Is the area sunburned, or have you tanned it in the last 2 weeks?

☐ Yes ☐ No

Have you had alcohol in the last 24 hours?

☐ Yes ☐ No

Do you know what's causing your hair loss?

☐ Pattern hair loss ☐ Alopecia areata ☐ A scar, from surgery or an injury ☐ General thinning

☐ Not sure

Do you use minoxidil or another hair loss treatment on your scalp?

☐ Yes ☐ No

Which one?

Have you had a hair transplant in the last 6 months?

☐ Yes ☐ No

When was it?

Anything else your artist should know about your health?

What you agree to

What SMP does

SMP is a cosmetic tattoo on the scalp. It adds the look of hair or density. It doesn't grow hair or stop hair loss.

Initials

Sessions

It usually takes 3 sessions, 1 to 2 weeks apart (the studio sets this). The dots look darker for the first days and soften as they heal. It fades over the years, and touch-ups keep it looking fresh.

Initials

If hair loss continues

If my hair loss continues, my design may need to change over time to keep looking natural.

Initials

Hairline approval

I'll approve the hairline the artist draws before the first session starts, and I can ask for changes until I'm happy with it.

Initials

Permanence

Scalp micropigmentation is a cosmetic tattoo. It fades over time but doesn't fully go away. Removing it takes several sessions and may leave a mark.

Initials

Risks

Any tattoo carries some risk of infection, allergic reaction, swelling or bruising. Following the care steps lowers the risk. I'll contact the studio about anything unusual, and my doctor about a medical concern.

Initials

About the pigments

The FDA treats tattoo and permanent makeup pigments as cosmetics and hasn't approved any color additive for injection into the skin.

Initials

MRI scans

The FDA lists MRI complications among the possible risks of tattoos and permanent makeup. I'll tell the MRI staff about my permanent makeup before a scan.

Initials

My answers

I answered the health questions truthfully. I'll tell my artist before the appointment if anything changes.

Initials

Alcohol and drugs

I'm not under the influence of alcohol or drugs.

Deposit policy

Your deposit holds your appointment and comes off your final price. Moving your appointment needs at least 48 hours' notice. A missed appointment without notice keeps the deposit.

Initials

the studio uses your health answers only to do your appointment safely and to keep the records the law requires. They are never used for marketing or sold. They are stored encrypted, and every time someone at the studio opens them it is logged.
