Scalp micropigmentation aftercare instructions

Caring for your scalp after SMP

These are your studio's care steps. If your artist told you something different, follow your artist.

- Keep your scalp dry for 4 days. No washing, swimming or steam.
- Skip workouts and anything that makes you sweat for 5 days.
- Don't scratch or pick at your scalp. Small flakes fall off on their own.
- Keep your scalp out of the sun while it heals, and cover it if you have to be outside.
- Don't shave the area until your artist says it's ready.
- Your next session is 1 to 2 weeks from now.

If something looks or feels wrong, contact the studio. For a medical concern, contact your doctor.
